ROBOTS

On the planet of the robots nobody ever gets bored. When one of them needs a screwdriver, every robot wants to lend him one. If it's necessary, they'll undo hands, legs and arms and then put them back together again. Sometimes they do it right, but occasionally something just isn't quite right...so they'll look at each other with a smile and start to dance.

En el planeta de los robots nadie se aburre jamás. Cuando a uno le falta un tornillo todos se lo quieren prestar. Si hace falta, desmontan manos, brazos y piernas y los vuelven a montar. A veces quedan exactos, otras algo no es del todo igual... Entonces se miran divertidos y se ponen a bailar.

Al planeta dels robots ningú s'avorreix mai. Quan a un li falta un cargol tots li volen deixar. Si cal, desmunten mans, braços i cames i els tornen a muntar. A vegades queden exactes, altres quelcom no és ben bé igual... Llavors es miren divertits i es posen a ballar.
